Purple 2538

*Keeping The
Customer
First!*

*Some colors shown will require special lead times. Most interior colors are made to order and will require extra lead times. *These colors are in stock and available for immediate shipment. All colors shown are lead, chromate and cadmium free.*

Color chips duplicate as close as possible actual gel coat colors. While our standard gel coats are compounds with high grade Isophthalic and NPG Polyesters, we do manufacture any type of gel coat to your specifications. Due to excessive exposure to ultra-violet rays, some colors fade. We recommend a UV coating to maintain product stability. For further information, please contact our technical support staff.
